Palestine Children's Relief Fund
Anaheim, CA

To All Attendees:

It is my distinct pleasure to extend a warm welcome to everyone attending the Palestine Children's Relief Fund annual gala, *Healing Hands*, being held at the Anaheim Hilton to support their numerous humanitarian missions and programs.

Founded in 1991, the PCRFB has expanded its mission over the years to meet the medical needs of suffering children not only in Palestine but other Middle Eastern nations. I applaud your efforts to save lives by sending doctors from the United States, Europe, and Latin America to these countries to treat patients and train doctors as well as bring children with the most serious conditions over to the United States for more extensive treatment. By locating, sponsoring, and running volunteer medical missions to the Middle East and also identifying free medical care in North America and Europe, you can indeed be proud that hundreds of children have successfully received medical treatment and will now be able to lead more productive lives.

This is a wonderful occasion to celebrate your accomplishments and to also recognize the many volunteers for their selfless contributions that have helped to make your tremendous humanitarian relief efforts a success.

Please accept my sincere best wishes for continued success.

Sincerely,

Curt Pringle
Mayor
